Professional Summary

Highly Innovative and ambitious Front-End web developer with a strong proficiency in web development technologies. Demonstrated expertise in creating responsive, visually stunning and intuitive user interfaces. I am seeking an entry-level position where I can apply my passion and contribute to the development of cutting-edge web solutions.

Skills and Technologies

- Proficient: HTML, CSS, JavaScript, Bootstrap, Tailwind, React
- Experienced: Node.js (CRUD operations), MongoDB, Express
- Comfortable: Git, RESTful APIs, Routing, Authentication, NPM
- Familiar: Next.js
- Attention to detail: Exhibit unwavering precision, meticulously crafting code that ensures immaculate quality, utmost cleanliness, and optimized user experience.

Projects

Culinary Art School: Developed a responsive online cooking course selling website.

Live Site   **Code (client)**   **Code (server)**

- Implemented robust features such as dynamic class listing for instructors, seamless add cart integration, and secure user authentication, elevating the overall user experience.
- Leveraged the power of Node.js and Express to ensure the safe handling of user data and facilitate secure payment processing, ensuring a seamless and trustworthy platform.

Big Bear Toys: Developed and implemented a dynamic toy selling e-commerce platform.

Live site   **Code (client)**   **Code (server)**

- Engineered and harnessed cutting-edge technologies (React, Node.js, MongoDB) to streamline toy management with unrivaled efficiency in "Big Bear Toy".
- Implemented Firebase authentication for ironclad security, while harnessing the power of NPM packages to maximize functionality and performance.

Bangladeshi Cuisine: Showcased top-rated recipes from renowned chefs.

Live site   **Code (client)**   **Code (server)**

- Implemented seamless CRUD operations using Node.js, Express, and MongoDB. Managed recipes, chefs, and user interactions effortlessly.
- Integrated robust login/signup system with Firebase for secure access and personalized experiences. Ensured frictionless authentication and data protection.
